NEW AMBASSADOR OF ECUADOR PRESENTS CREDENTIALS TO IMSO

Today, the Director General of IMSO Captain Moin Ahmed warmly welcomed His Excellency Mr. Jaime Marchán-Romero, Ambassador of Ecuador to the United Kingdom. As the new Ambassador of Ecuador, Mr. Marchán-Romero presented his credentials to the Director General. Ambassador Marchán-Romero was accompanied by the Deputy Head of Mission, Minister Mr Leopoldo Enrique Rovayo Verdesoto and other officers.

The Ambassador His Excellency Mr. Jaime Marchán-Romero presenting his credentials to Director General of IMSO, Captain Moin Ahmed

Following the presentation of credentials ceremony, the Director General expanded on the IMSO's role in public satellite safety and security services provided by mobile satellite communication systems, particularly its duty as the regulator of recognised mobile satellite systems Inmarsat and other future providers such as Iridium who will be Global Maritime Distress Safety System (GMDSS); the coordination of the Long-Range Identification and Tracking of Ships (LRIT) System worldwide; and also in its co-operation with other international and regional organisations that are involved in mobile and maritime communication matters.

Ecuador has been a Member of IMSO since 11 November 2015 and the Director General and Ambassador discussed further ways to deepen the working relationship between IMSO and Ecuador. Both the Director General and the Ambassador were keen to continue the co-operation between Ecuador as a Member State and IMSO as the Organization.
